It is with great pleasure that I write this testimonial on behalf of Stephen Epstein. I met Stephen over fifteen years ago. At that time I wasn't sure I needed my own disability and life insurance policies as I already had group policies with the CDSPI. I was very hesitant, but with Stephens constant, constant persistence I decided to listen to him and change my policies. Am I glad I listened to Stephen and got my own policies! Fifteen years later I needed my disability insurance.

Not only is Stephen knowledgeable regarding insurance, he is always available when I have questions and returns my phone calls in a timely manner. When I needed him the most, he was my advocate answering all my questions professionally and accurately.

Stephen is a loyal, professional and highly motivated insurance agent and I would highly recommend him. I am very happy with the quality policies I chose on his recommendation over fifteen years ago.
